4. Customers with characteristics of vulnerability

The Society categorises Vulnerabilities as shown below: -

Health – Health conditions or illnesses that affect ability to carry out day to day tasks;

Life Events – Life events such as bereavement, job loss or relationship breakdown;

Resilience – Low ability to withstand financial or emotional shocks;

Capability – Low knowledge of financial matters or low confidence in managing money (financial capability). Low capability in other relevant areas such as literacy, or digital skills.

The Product is designed for the Shared Ownership market segment which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

Shared Ownership could be less likely to have a comprehensive understanding of the implications of the Shared Ownership mortgage. They may require additional advice and support to ensure they understand the information being presented to them and the implications of the arrangement they are entering into to reduce the risk of harm occurring.

Shared Ownership customers may also include First Time Buyers, who by their nature would also be less likely to have a comprehensive understanding of the implications of both the Shared Ownership Scheme, and of entering the financial commitment of a first mortgage.

Shared Ownership customers may also include borrowers who are retired, who by their nature may also be less likely to have a comprehensive understanding of the product and may have characteristics of vulnerability which could include health, resilience, and capability.

Shared Ownership customers may also include borrowers whose mortgage term will extend past their defined national retirement age, which may lead to characteristics of vulnerability which could include health, resilience, and capability.

We considered the needs, characteristics, and objectives of customers with characteristics of vulnerability at all stages of the design process for this Product to ensure the Product meets their needs.

We have also tested the Product to assess whether it will meet the identified needs, characteristics, and objectives of the target market, including customers in the target market who have characteristics of vulnerability.

We have in place a framework to achieve good outcomes for vulnerable customers, which includes:-

- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers;
- Suitable customer service provision and communications;
- Flexible policies, where appropriate, to support vulnerable members;
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

Intermediaries should continue to comply with your obligations to ensure that you treat customers in vulnerable circumstances fairly.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the Product.
